

## Triangle Foodscapes

New company in the Research Triangle Park area of North Carolina that provides services to high-end consumer clients who wish to go green by growing organic food in their own small space.

This new and exciting company takes pride in providing professional grade landscapes that have minimal impact on the environment. Primarily fueled by the local foods movement Triangle Foodscapes provides customers edibles from their own back yard. In addition they limit their contribution to runoff and pollution by using permeable paving systems and organic weed and pest management where possible.

Today, it is the mission of Triangle Foodscapes to improve the sustainability of the Research Triangle Park area by providing customers with a high-quality, low-impact and productive landscape.

### ARTWORK:

Logo using triangles and a potato plant while retaining the complete text of the font. 4 options are shown and can be used together depending on where client applies the logo. The full size logo should be used as the main logo whereas the smallest version may be great to brand your containers and remain small and readable and the simple logo should be used on the shirts you are having embroidered for the staff.
